

TECHNOLOGY SYSTEMS
for Stadia and Arena Venues

— Amplifying —

Ambitions

Landways

Landways enables your venue to become smarter, more connected, and future-proof.

Fans enjoy seamless, high-performance Wi-Fi, crystal-clear audio, and immersive displays. Your operations team gains full control with high-definition CCTV, access control connectivity, and centrally controlled LED lighting. We help you enhance your venue's appeal, lower operating costs, and eliminate technology risks—delivered through one convenient monthly service charge.

Stadiums often struggle with poor connectivity, frustrating fans and limiting engagement opportunities.

Landways provides reliable, ultra fast venue-wide Wi-Fi that ensures every fan stays connected throughout the stadium, allowing you to activate digital services like mobile ticketing, in-seat ordering, and real-time app updates. Our system is guaranteed to perform, enhancing fan satisfaction and driving revenue growth.

Inconsistent audio quality can detract from both the fan experience and critical safety announcements, especially in large venues.

Landways delivers crystal-clear, zoned audio systems that cover every seat, office and concourse across the venue. Whether it is for entertainment or safety, our tailored digital audio solutions ensure millisecond-perfect sound that keeps fans informed and entertained, reducing risk and improving the overall venue experience.

Sports venues face high energy costs and outdated infrastructure that isn't sustainable for the future.

Landways delivers energy-efficient digital and power infrastructure that supports net zero ambitions and reduces energy costs by up to 20%. With full-fibre networks, DC microgrids, smart power management, and optional solar panels, our solutions are designed for the future. Backed by dedicated operational teams, performance guarantees, and contract-long upgrades, we ensure exceptional performance and lower your total cost of ownership.

Our Approach

We Design

expertly tailored digital and power infrastructure and technology solutions to meet the challenges of complex venue environments.

We Finance

all upfront project capital, ongoing operational costs and planned upgrades, in return for a monthly fee.

We Build

high-performance solutions that drive results and long-term success; seamlessly integrating into venue operations by our experienced team.

We Operate

advanced, high-impact solutions supported and managed by dedicated professionals, practices and standards to ensure excellence.

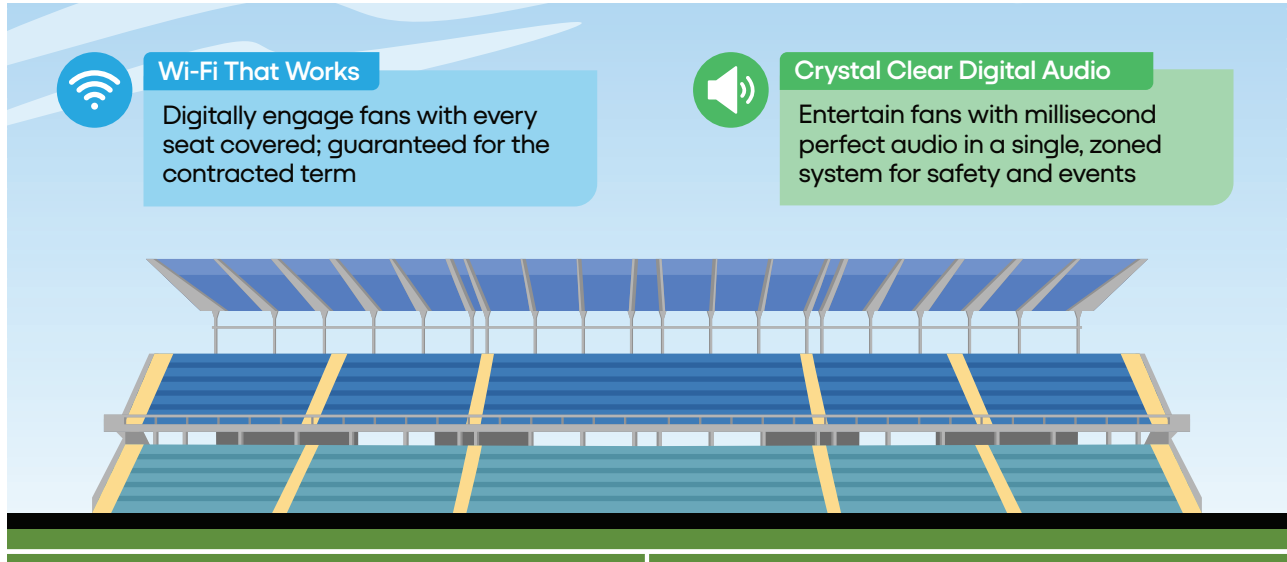

Our Technology Systems

We offer a tailored suite of compliant technology systems to suit any new build or retrofit venue project.

1

Step One:

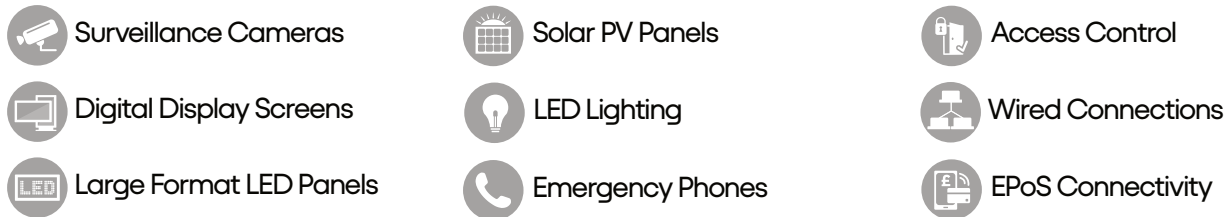

Select one or both of our key technology systems for your venue:

2

Step Two:

Add any number of the growing list of technology systems to the solution:

3

Step Three:

Landways' experts will develop a professional, tailored proposal outlining the selected technology services, coverage zones, performance standards, and supporting digital and power infrastructure. This comprehensive proposal includes an estimated delivery timeline, system maintenance support package, and detailed commercial offer, providing all the information necessary to advance your project with confidence.

Landways' solutions are fully customisable to meet the unique needs of your venue, whether it's a new build or retrofit. Our systems are designed to scale and adapt as your venue grows, ensuring long-term flexibility without additional major investment.

- High performance systems
- Cost effective technology deployment
- Sustainable practices
- Multi-use digital and power infrastructure
- Scalable, modular architecture
- Space saving designs
- Built-in resilience

Contact us today to start joining the dots.

Maximise your return on investment with Landways' Infrastructure as a Service.

By spreading costs through a single monthly fee that includes all digital and power infrastructure, technology systems, operational support, and planned upgrades, you avoid upfront capital expenditure, while benefiting from guaranteed performance.

With reduced energy consumption, lower maintenance costs, and a future-proof solution, our model ensures you see a faster ROI and continued savings for the life of the contract. And importantly, our monthly charge starts only when the technology goes live.

If we don't deliver, **you don't pay.**

Discover the Possibilities

Schedule a no-obligation discussion with one of our commercial experts to explore how Landways' infrastructure and technology solutions can transform your venue.
